

“120 JUBILEES, Why 2023 May Be The End Of Days”  
The Creation Jubilee Timeline, Reconstructed From Historical Data  
FROM CREATION

TO THE END OF MAN’S ALLOTTED TIME

Two Tassels Ministry announces the release and availability of its definitive historical research book, “120 Jubilees, Why 2023 May Be The End Of Days”, published on March 7, 2010, just before the approach of the 2012 Mayan calendar End-Of-Days enthusiasm.

This book is a definitive work demonstrating the historical Timeline of the Jubilees Cycle started at Creation. All of the historical research and technical commentary referenced by this book are available on the website.

This book is written for the average person as a summary of this extensive historical research. Deriving from this Timeline is also a prophetic warning that people of all religions will want to read.

Using only objective, verifiable, historical references, this book firmly establishes the Creation Jubilee Cycle used in history. Included are the dates for Creation, the Flood, the Exodus, and many other historical events that were dated relative to the Jubilee Cycle. There are enough objective historical records to demonstrate that this Timeline cannot be shifted in either direction, not even by one year. This newly discovered Timeline becomes the backbone for reconstructing all of historical chronology.

Revealed by the Creation Jubilee Timeline is that we are indeed living in the last days. This book provides the evidence that Genesis 6:3 and Daniel 9:24 are prophecies referring to Jubilee Cycles ending in September 2023. All of the end-time prophecies will be fulfilled in the next few years. Because of this, everyone needs to read this book.

FROM CREATION

TO THE END OF MAN'S ALLOTTED TIME

Mr. Wayne L. Atchison has dedicated himself to the edification of the Body of the Messiah through service, and the presentation of his historical research. In 1990, he was ordained a Pastor, and has served several congregations in the northwest United States.

Mr. Atchison has written over 100 doctrinal and historical research papers under the pen-name “Christian Technical Notes”. Several of his papers have been reprinted by other publications, including “The Sabbath Sentinel” and “The Journal”. His research is included as references by other book authors.

In 1996, Mr. Atchison published the research book “The Seventh Circle in Bible Prophecy, Astronomy and the Prophetic Timelines of the Bible”. This fully referenced research book demonstrates how and why using the concept of counting circles within circles is the ancient method used to count time. The Biblical riddles found in the book of Revelation are explained by using this ancient method of counting time. For example: the seventh circle is the answer to the riddle of Revelation 17:8 wherein “The Beast” is described as: “...which was, and is not, and notwithstanding it is, and is an eighth, and is of the seven”. This book is foundational to the understanding of how astronomy is used to understand the prophecies of the Creator.

In 2000 Mr. Atchison authored a series of very extensive research papers on the ancient lunar calendar used in the Second Temple Era. This research includes the analysis of ancient astronomical sightings, and contains scores of direct quotations from ancient sources. Mr. Atchison’s ancient calendar research is also provided as part of this new book.

In addition, over the last forty years Mr. Atchison has taught numerous seminars. Mr. Atchison is esteemed as an expert in Biblical studies and objective historical research.
